The Worcester Property Viewer gives the public access to the city's GIS and Assessing Department information on a selected property. It has many features which allow users to view, query, and create maps for printing and sharing, as well as export selected datasets into a spreadsheet, mark up maps and more!
Learn more by viewing the Help page.

You can search for a property by street, address range or property ID. For questions about property information, please contact Assessing. For questions about the Worcester Property Viewer, please contact GIS. Note that use of the Worcester Property Viewer implies acceptance of the City's Website and GIS Data Disclaimers.
